

1. Here is the file `hello.c` that is defined by this CWEB source text `hello.w`:

⟨Header files to include 2⟩
⟨The main program 3⟩

2. We include the standard I/O declarations, since we send output to *stdout*.

⟨Header files to include 2⟩ ≡
#include <stdio.h>
This code is used in section 1.

3. Now we come to the general layout of the *main* function.

⟨The main program 3⟩ ≡
void main(void)
{
 printf("Hello\n");
}

This code is used in section 1.

4. Index. Here is the list of the identifiers used.

main: [3](#).

printf: [3](#).

stdout: [2](#).

⟨ Header files to include 2 ⟩ Used in section 1.
⟨ The main program 3 ⟩ Used in section 1.

HELLO
